

**Cigna Acquisition of Express Scripts To Have
No Impact on NMRHCA Members**

On Thursday, health insurance provider Cigna announced the acquisition of Express Scripts for \$70 billion, according to information provided to New Mexico Retiree Health Care Authority.

The companies both said they believe the merger will help them improve patient care and help their members get the most value from their benefit. They believe patients' access to health care will be simpler and physicians will have more time for consultations and reduced time spent on administrative work.

The agreement will have NO IMPACT on NMRHCA members' drug benefit plans through Express Scripts. This information is only to make members aware of the transaction. If you have any questions, please call us at 800-233-2576.
