

Affected by a natural disaster?

Teladoc is here to help

We know you have urgent needs, concerns and decisions to attend to as you rebuild in the aftermath of this recent crisis. That's why Teladoc is offering **free**, easy-to-access telehealth visits to help you, your family and community get the care you need.

Teladoc provides:

24/7 access to a U.S. board-certified doctor

Prescriptions when medically necessary, sent to a pharmacy of your choice

Even if you already use a Teladoc account to receive care, you'll need to call our Teladoc natural disaster hotline to request your **free visit**. Teladoc member service agents are standing by to help when you're ready.

Call for care: 855-225-5032

This service extends beyond current Teladoc eligibility and is available to any individual in the affected area during this time.

Frequently Asked Questions

What should I do to receive care now?

Call our Teladoc natural disaster hotline at **855-225-5032** to request a free visit. Since this natural disaster benefit is available to everyone in your affected area, you'll need to call even if you already have and use a Teladoc account for care.

What can Teladoc doctors treat?

Teladoc doctors can diagnose and treat common conditions, including headaches, stomach issues and many other non-emergency illnesses.
